school, will sing the solo at the  
Methodist Church next Sunday  
evening.

Dr. and Mrs. Dr. McEwen went  
to Calgary last week for a visit. In  
their absence Miss Hilda McEwen  
is a guest of her grand parents at  
Brutus.

was in town to receive medical at-  
tention.

Roughly speaking or speaking  
roughly there are about two thou-  
sand and readers of this G. E. L. Al-  
ready 1999 have called our atten-  
tion to a mistake in a certain ad  
last week. If you don't think The  
News ads are read you are foolish.

WASTED—Party with threshing  
outfit, at once, to thresh from  
stacks. 400 acres of grain. Wheat,  
oats, flax. Good chance to make  
some real money. One mile north  
of Tilley. Liberal price paid for  
quick threshing. Inquire Alex.  
Duchascher, Tilley, Alta.

Mrs. F. C. Woolven was greatly  
cheered Tuesday morning when she  
received a cablegram from Roy  
Woolven, of the 175th, from Eng-  
land. Just two words: "Arrived.  
Well." It is good news all round  
that the 175th reached England's  
shores safely.

Capt. and Mrs. C. S. Pingle  
motored up from Medicine Hat  
last week. The Captain, who is  
now on the headquarters staff at  
Sorens Camp, interviewed several  
citizens on the subject of the Patri-  
otic Fund. A fuller announce-  
ment is made of this matter in an-  
other column.

## WEDDING BELLS.

LEONARD—TIGHE.

This morning, Saturday, at 7  
a.m., in St. Patrick's Chapel, the  
marriage took place of Mr. John  
Leonard and Miss Grace Kathleen  
Tighe, both of Alderson. The mar-  
riage service was performed by the  
Rev. C. Sanner, M. Sc.—Medicine  
Hat News.

The congratulations of a host of  
friends are extended to Mr. and  
Mrs. Leonard. Mrs. Leonard was  
known to a great many friends in  
town, owing to her being for sev-  
eral years in charge of the dining  
room at the Caristadt Hotel. They  
have taken up residence on Mr.  
Leonard's farm near town.

Tommy Boyd, proprietor of the  
American Hotel, is in Calgary on  
business this week. During his ab-  
sence Messrs. Nelson and son, late  
of McMinnville, Oregon, are in  
charge of the house.

The W. A. spent a very busy  
afternoon yesterday at Mrs. Albert  
Cole's, and will hold their regular  
business and sewing meeting on  
Wednesday afternoon, Nov. 1st,  
at the residence of Mrs. Geo. Beatty.

Remember the fund to supply  
Christmas cheer to Canadian sol-  
diers in the hospitals is open at the  
Alderson Post Office. Or you can  
hand your \$1.50 to the Alderson  
News. \$1.50 sends a full sock and  
one empty one to a soldier.

On Wednesday Messrs. N. E.  
Stuart and W. D. Mackay motored  
to Suffield and took in the First  
Day of the Fair. Yesterday was  
somewhat of a Preparation Day, and  
today, Thursday, should be the Day  
Of the Big Wind in Suffield.

The latest to purchase Ford cars  
from N. E. Stuart, local agent, are  
Messrs. Tom and George Ferdon.  
Now that Ferdon Bros. have cars  
that almost completes the Bairy  
Valley citizens. It is rumored that  
the name of the Valley will shortly  
change to Ford Valley.

Last night in the Method is  
Church was held one of the best  
debates ever arranged in Alderson.  
The subject was, "Resolved, That  
Co-Operative Trading is Beneficial."  
Messrs. Harry W. Johnson and J.  
Gauler supported the affirmative  
and Messrs. R. H. Thornton and  
F. E. McDiarmid the negative.  
Space or time will not permit the  
News to give the well thought out  
arguments of the contestants, but  
real oratory flowed throughout.  
After the battle of words the judges,  
Mrs. J. W. Rosenberg, W. J. Hall,  
and Ed. Bell decided that the affir-  
mative had won by a quarter of a  
point. Rev. Taylor presided.

16,000 Copies of Book Sent to English Schools

Obed Smith, Commissioner of Emigration has received, by order of the War Relocation Authority, 16,000 copies of Sir Max Atkinson's book, "Canada in Flanders," for distribution in English schools. The book, which he judges the books are most striking. "It is a masterpiece," he says. "For instance, versus: 'Over a hundred years ago, the English people were called to arms by the Duke of Cornwall's Light Infantry, who on every duty day of the year, were ordered to march in his escape with them, but he refused to do so. The Duke of Cornwall's Light Infantry was the only regiment that happened to be Tommy Atkins' regiment. The Duke of Cornwall's Light Infantry was the only regiment that was performed during the M. The door was said to be a 'regiment' of the Duke of Cornwall's Light Infantry. The expression has been used in a number of places, and it is now applied to the British soldiers."

The name Tommy Atkins, which is universally applied to the British soldier, originated in the Duke of Cornwall's Light Infantry. When the rebellion broke out in 1848, the Duke of Cornwall's Light Infantry was the only regiment that happened to be Tommy Atkins' regiment. The Duke of Cornwall's Light Infantry was the only regiment that was performed during the M. The door was said to be a "regiment" of the Duke of Cornwall's Light Infantry. The expression has been used in a number of places, and it is now applied to the British soldiers.

**LIVER TROUBLE**

**Dizziness**

No liver sufferer can fail to benefit from the use of Dr. Cassell's *Instant Relief*. Its action is natural as nature, rare as science. It is altogether different to ordinary liver stimulants and morning-after cures. These weaken the liver by forcing it, till it cannot work at all without rest, and then it does. Dr. Cassell's *Instant Relief* strengthens the liver and stabilizes the system to cure itself. This cure is lasting.

**Constipation**

Take Dr. Cassell's *Instant Relief* for constipation, biliousness, torpid liver, sick headache, indigestion, specks before the eyes, flatulence and windy vapors, colds, heartburn, impure blood, and that sick, heavy feeling which is a sure sign of liver troubles.

**The Market Report**

Contributed by Randall, Gae & Mitchell, Inc., 1000 Merchants Building, Minneapolis

A careful study of conditions would lead one to expect that prices at high levels do not exaggerate the facts governing the crop situation. In fact, the market has estimated the production of wheat in this country at one hundred and thirty-seven million bushels, or practically twice the amount of the 1932 crop.

We must remember, however, that this is the very first year of the depression. Then we have the American crop, which is estimated at approximately 100 million bushels, of which is the lowest average for a number of years.

Both crops are going to be made up of a large percentage of soft winter wheat. In fact, the early shipping season has been so slow that it showed very heavy ruin of feed

when people cannot afford to accept anything on the very best basis for money. Zink has been proved to be the most reliable source of information for skin ailments and injuries, because it cures when other treatments fail. The skin cures are permanent. You take no medicine, and you don't have to. Only the really good things are guaranteed to cure. The literature is provided by the great Zink Company, 1000 Merchants Building, Minneapolis, Minnesota. **GUARD BABY'S HEALTH  
IN THE SUMMER**

The summer months are the most dangerous for children. The complaints of that season, which are cholera, infantum, colic, diarrhoea and dysentery, are often fatal. It is often a little one is beyond aid before the mother realizes he is ill. The mother must be told that if the child has a fever, trouble or if they do come on suddenly to cure them. No other medicine is of such aid to mothers as Baby's Own Tablets. They regulate the stomach and bowels and are absolutely safe for mothers to give. They are sold by all 25 cents a box from

"Your Honor, man's inhumanity to man makes countless thousands of victims," said the defense lawyer as profligate as Byron, as dissipated as Caliban, as much of a scoundrel as the Devil himself.

"That will do!" thundered the magistrate. "Ten days! And officer, take care of him; he may get ill in there. Are they as bad as I am?"

Most Pills unfortunately are harsh and drastic; they cause inflammation of the bowels, produce constipation, and nature is the way a pill should act. But effectively. Science has established that the most reliable way to cure a family pail from the old reliable Dr. J.C. Hamilton's Corn Cure forty years have had a premier place in the home. The medicine is very mild and can be effectively used by the aged, by children, and in cases where the stomach is weak, the stomach or bowel movement is irregular, or the patient suffers from headache or biliousness is so effective that it is recommended by all doctors as a 25c box of Dr. Hamilton's

Frenchman Says Even the Germans  
Admit Enemy Superiority

This was how a French officer, just back from Somalia, described the British flying champion in the *Observer*. The British and French newspaper man, in admiring words, has also said that the British have wrested the mastery of the air from German fighters. "Our brave aviators," he wrote, "are flying on their own at last, and France today is the first country to have a pilot who is his own master."

Even the German fliers who have been captured by the British are so bravely brave that they are giving the British a new word for their worthy performances. Not only have they been called "aces" by the German defences and denied the anti-aircraft gunners, but they are now being called "aces" by the British, too. Four and five Bokers at a time as three and four Bokers at a time.

"The German fliers, who months ago looked with contempt on your aims, respect and admire them as the result of bitter experience. That great young British aviator who sent Captain Immelmann to his death has become a terror to the Boche. You ought to have him on all your picture postcards. Like all your men he is a real hero, and France is proud and gratified for their invaluable co-operation."

**Find Lost War Papers**

One of the curious requirements growing out of the rush of war work in the United States is the demand at the War Office to look up lost documents. The "searchers" make their money by finding every document often in the pressure of many kinds of work, an important war record may be sold for a single cent or up on some desk, and it is the business of the "searchers" to find the papers, to get lost records and get it back again in the regular channels.

## New Economic Entente

ALLIANCE FOR PEACE AGAINST TORCHES  
of the Hun

The political remodelling which will follow after the war should be accompanied by a veritable economic revolution," writes Raymond Guyot, Lawyer, member of the French Institute. "The Allies will no longer be foolish enough to leave the greater part of their commerce in the hands of the enemy. They have discovered that they can supply each other mutually with all the raw materials and manufactured goods which they formerly received from Germany and Austria. They know that the 800 million human beings who inhabit France, England, Russia, Japan, Belgium and Serbia with their colonies form an immense field of conquerors, capable of absorbing the entire produce of the Allies."

"It will be a difficult and exceedingly laborious task to arrange their future economic relations. Their work will be insignificant in comparison with the enormous effort now being made on land and sea. The essential thing is to form a new entente, this part of our common task in a broad-

kindness and liberal manner and always make the good a reality. The child must be reached to seek the military compact, and the child must be the German dancer, by a clear and definite conscious exertion. The child, too, as on the battle-field we are sure of it, must be able to do it.

Certain morbid conditions must exist in the stomach and intestines to encourage worms, and they will exist as long as the morbid conditions permit them to. To be rid of them, and stop the child suffering, use Miller's Worm Powder. They will correct the morbid conditions by destroying the worms, conditions favorable for the worms will be removed, and the child will have no more suffering from that cause.

## How Americans Help Pay for the War

**Belligerent Nations**

Why American consumers have to pay exorbitant prices for meat is clearly enough explained by the statistics of meat exports compiled by the National City Bank. More than the exports of meats of all kinds rise from 455,000 pounds in 1914 to 1,339,000 pounds last year, but

fresh beef shipments during the same period jumped from 6,400,000 pounds to 231,000,000 pounds. Most of this was consigned to the belligerent countries, Great Britain, France and Italy taking 214,000,000 pounds of American beef last year as against none at all in the year before the

war. In other terms the United States has exported to Europe during the two years of the war 29 times as much beef as in the two years immediately preceding the war, and this in the face of a decrease in the supply of cattle and a decline in domestic imports of meat to less than half the amount of 1914. Is there any

wonder that the price of meat for home consumption is higher than at any time since the Civil War—New York World.

### ALDERSON PATRIOTIC FUND, 1916-1917.

Already plans are underway here to make the Patriotic fundings of this year even better than the very satisfactory total of last year. Capt. C. S. Pingle, M.L.A., will have personal charge of the raising of funds this year, and will make Alderson his headquarters for Redcliff riding. The details for what promises to be a very successful campaign will be worked out at a meeting of workers to be held in McEwen's Hall, on Saturday afternoon, at 2 o'clock. Every one interested in the work, ladies and gentlemen, are invited to be present. Capt. Pingle will be present at this organization meeting. Later a big Patriotic Rally to be addressed by prominent Alberta men will be held. Speaking to the News Capt. Pingle said that he would personally be responsible for every cent expended in connection with the raising of the funds, so that every cent subscribed by residents of Alderson and district would go direct to the coffers of the Patriotic Fund. Now, if you are a British subject and want to help along the good cause, get out to this organization meeting on Saturday at 2 p. m.

### THE SOLDIERS XMAS STOCKING FUND.

Scan the list in another column of the good friends who are throwing in their mites to this deserving fund at the Post Office. Mrs. W. M. Carter has been so indefatigable with this fund that on Monday it passed the 100 dollar mark. Less than two weeks from the time the first request was asked. It bids fair to make the second hundred. The name of every man, woman and child in town should be on that list. Your mite will help to cheer some wounded soldier on Christmas Day.

### GIVES ALDERSON CREDIT.

Editor Nesbitt, of the Brooks Bulletin, has many fine points about him in spite of the fact that he is a newspaper guy. In the copy of his paper for October 14th he has the following, and in behalf of Alderson citizens we thank him: If anyone should ask us what place did the best for the Patriotic Fund in Alberta last year we should say Alderson, and they used to call it Carlisle!

### CROP STORIES

The Scollard & Hegg's threshing outfit has had some nice runs in the south country. One of the best yields encountered was that of Wm. Witham of Suffield. On Mr. Witham's farm 50 acres of wheat yielded 2600 bushels, or 52 bushels to the acre through. Very satisfactory to the proprietor, who until a couple of years ago was a business man at Boston. Mr. Witham has enrolled as a subscriber to the Great Family Journal, and the label on his paper reads Jan. 1st, 1918.

For Max Conn, from 13 acres of oats, the Scollard & Hegg outfit threshed almost 1100 bushels, or over 80 bushels to the acre. Mr. Conn also has a fine wheat crop, but at the time of writing the wheat was not threshed.

The moisture that came Tuesday and Wednesday goes to further everyone's expectations for another good crop in 1917. Like fall, like summer.

John Engler had an acre patch of spuds this fall that considerably over 400 bushels. Some of the giants weigh two and a-half pounds and three pounds.

One of Alderson citizens who is well pleased with his season's crop is A. D. Thompson. His crop was all wheat, mostly Marquis, and he has over 8000 bushels to dispose of.

### Pearsonville.

At banquet was held at the home of W. W. Stokes, on Sept. 29th, in honor of Mr. G. H. Vellett, who went to England to complete his study for the ministry. The good program given by the pupils of the school was a credit to the teacher. They were assisted by Mr. Hutchinson and Constable Arnold of Suffield. The table was beautifully decorated with flowers, and headed to its respect with the very best the land could afford. The Ladies' Aid had full charge, apportioning money to make this the banner evening of the year. At the close of the evening the pupils presented their teacher with a beautiful table and wishing him God speed. Those from Suffield were Mr. and Mrs. Hutchinson, Mr. and Mrs. J. Best and daughters, Mrs. Roberts, Mr. and Mrs. John Roberts, and Constable Arnold. Ninety-two sat at the table.

The Basket School given at the home of W. W. Stokes, on Oct. 13, by the Pearsonville Ladies' Aid, was a decided success. The sale of five baskets realized the sum of \$41.00, which is to be used to purchase books for a Sunday School class. The ladies were all very helpful to the cause for their generous contributions.

Remember the News will be sent to any address in the U. S. until the first of the year for 40 cents.

### THE SECRET OF THE SUBMARINE

THE STORY TO DATE.

Cleo's expected triumphs are short lived, for the fates seem to have joined with her human enemies in adding to her woes—and her courage.

CHAPTER NINTH.

Escaping death in the earthquake Cleo and Hope find a prescription in the book. Olga and Morton believe this is the secret. Cleo attends an aviation meet where Morton's friend, Smith, competes. She is kidnapped by Morton, tied into Smith's stolen aeroplane and a start is made to the mountains.

When Morton believes his captive secure, Cleo suddenly grabs a parachute and drops to the ground. Morton follows. They land near Patton's cabin to which the only means of access is in a basket over a cable crossing a chasm. Morton flies back for Olga leaving Cleo alone. She sends a note, weighted into the canyon, which is delivered to Hope, who starts with Hook to her rescue.

They arrive at one end of the cable. Cleo is on the opposite side. Hope starts to cross the cable hand over hand, as Hook sends up a warning shout, for Mahlin and Satusma are hurrying to head Hope off. Seizing on axe Mahlin runs toward the cable while Cleo looks on helplessly. There is a hurried shout from Satusma, a resounding blow and the cable is severed.

## Buy an Irrigated Farm

FROM THE CANADIAN PACIFIC RAILWAY BECAUSE

Irrigation makes the farmer independent of rain and insures good crops, not occasionally, but every year. Irrigation makes possible the successful culture of alfalfa, the king of feeders, which insures best returns in dairying and mixed farming.

Irrigation means intensive farming and close settlement with all the advantages of a densely populated agricultural community.

Irrigation in the Canadian Pacific Railway Block is no longer an experiment, the year 1914 having absolutely demonstrated its success wherever intelligently applied. You can buy irrigated land from the Canadian Pacific Railway at prices ranging from \$35 to \$75 per acre, with twenty years' to pay and the privilege of a loan of \$2,000.00 for improvements (6% interest); no principal payment at the end of first and second years and no water rental for first year. Assistance is also given in supplying stock in approved instances.

This is the most liberal offer of irrigated farm land on record. Get full particulars from

### The Canadian Red Cross.

The Canadian Red Cross Society has decided to make a special gift of Christmas Stockings to all Canadians in hospitals this Christmas.

After consultation with Lady Drummond, it is thought advisable to prepare 15,000 of these stockings. Of this number the Alberta Provincial Branch has undertaken to supply 2,500. An ordinary sock, such as our Society is shipping constantly, will be used for this purpose. It is proposed to fill one sock and send the other with it, so that, in this way, a pair of socks will form a part of the Christmas gift. Socks will be filled with the following articles: Pocket mirror, pocket pen, a cheap style of pen, chewing gum, cigarettes, handkerchiefs, writing paper, cigarettes, tobacco, pipe, and penholder. To reduce cost and secure a uniform gift, it has been thought best to purchase the articles required, for filling the socks, wholesale, and to issue a special appeal to our Branches and other Societies interested, for cash contributions to be used in the purchase of these goods.

Money sent in for the purpose will be placed in a Christmas stocking fund and credited in this manner to the Society sending it. The cost of filling each stocking is estimated at \$1.50. Contributions may be handed to Mrs. W. M. Cotter, at the Post Office. All Branches and other Societies having socks on hand are requested to send these forward before the end of October.

### Fund is Growing.

Help to make a cheerful Christmas for the boys at the Front who are fighting for us.
